For a party that forwards the idea of women in politics, such behaviour towards their own female party member is uncalled for and concerning.

An enquiry is the least that Congress can do to uphold its own ethos - or is it that the stature of a male politician will supersede?

. @srinivasiyc thinks he is so powerful
And has the blessing of big leaders that he can harass and demean a women in the organisation.

I had a lot of faith in @RahulGandhi and went to Jammu during @bharatjodo to appraise him of @srinivasiyc harassment and demeaning use of language towards me. It's April now and still no equity against him.
